

Welcome to opusQ

opusQ is an IT development start-up based in Zurich, Switzerland that supplies services of (web) application development, component development, interface programming, professional ecommerce online shopping systems, software development and graphic design. opusQ features a team of consultants and experts in design, advertising, online campaigning, e-learning and programming.

In particular opusQ offers:

opusQ CMS

In particular opusQ develops opusQ CMS, aimed at design professionals and webmaster without or only little programming knowledge. WYSIWYG, drag and drop, auto backup, push-technology, etc. are amongst the core features of opusQ CMS.

e-Campaigning

Furthermore, opusQ is specialised in political communication and e-campaigning. We develop websites for politicians, candidates running for elections and for campaigning organisations.

e-Learning

Provide your students with the possibility to interact with teachers and each other through online assignments, chats, forums, blogs, etc.
